Dear Colleague,

It is my great pleasure to invite you to attend the 2013 AGA-ASGE Clinical Congress of Gastroenterology and Hepatology. Designed by GI clinicians for GI clinicians, this congress will provide you with comprehensive updates in all areas of the GI field along with immediately applicable information for both hospital and practice settings.

As a busy GI clinician myself, I know the challenges you face keeping current with the latest advances in the field, in addition to continually delivering quality patient care. The Clinical Congress is your solution as it provides you with information tailored to your needs and your schedule.

For the first time in its existence, the congress will be sponsored by both AGA and ASGE. Both organizations’ long-standing expertise within the GI community is reflected in the program. The program features a highly interactive learning format, including real-world cases, hands-on learning and lectures with Q&A. Here are a few of the program highlights:

- In-depth information on recent advancements in the detection, management and treatment of the full spectrum of GI and liver disorders.
- Expert analysis of difficult clinical issues occurring in practice today.
- Information on forward-thinking topics such as the gut microbiome and how this may affect your practice.
- Extensive opportunities for networking and peer-to-peer interaction.

Smaller breakout sessions allow you to maximize learning opportunities, enabling you to focus on areas of particular interest and relevance.

The addition of hands-on endoscopy courses to this year’s program further adds to the overall congress experience. Leading practitioners from both academia and private practice offer guidance on state-of-the-art techniques for upper and lower GI endoscopy practice. Each section will feature didactic presentations about optimal approaches to diagnosis and management of the topic under discussion.

By AGA and ASGE partnering together to deliver in-depth programming, the 2013 congress is sure to offer something for all who attend. You do not want to miss this opportunity to fine-tune your clinical decision-making and connect with your peers. I hope you encourage your colleagues to attend as well.

Remember to register early to take advantage of discounted rates.

See you in San Diego.

All the best,

David A. Lieberman, MD, AGAF, FASGE
2013 Clinical Congress Director

P.S. While you are at the congress, don’t forget to explore the sights and attractions of the Hotel Del Coronado and its surrounding community. Take a ferry or taxi to downtown San Diego for additional entertainment options. Regardless of what you decide, you are sure to find world-class dining, exciting nightlife and much more.
AGA-ASGE Clinical Congress

BEST CLINICAL PRACTICES: 2013

Expand Your Knowledge, Enhance Your Clinical Decision-Making Skill Set

Get practical and immediately applicable solutions on how to improve patient outcomes and strengthen professional competence in a rapidly changing GI field. Attendees will explore recent developments in the detection, management and treatment of GI and liver disorders. Case-based learning, small-group breakouts and extensive faculty-attendee interaction come together to deliver a unique learning experience.

Clinicians will find that information gained at the congress can be utilized in both the hospital and practice settings.

Common GI disorders discussed include:
- Viral hepatitis
- GERD
- Crohn’s disease
- Ulcerative colitis
- Pancreatitis
- Cirrhosis

Complex GI disorders discussed include:
- Colorectal cancer
- Biliary strictures
- Barrett’s esophagus
- Celiac disease
- Eosinophilic esophagitis
- Gastroparesis

Make sure to visit the exhibit hall for the latest advances in technology and therapeutics from leading companies around the world.
AGA-ASGE Clinical Congress
BEST CLINICAL PRACTICES: 2013

Target Audience
Physicians, Fellows in Training, Nurse Practitioners, Physician Assistants, Other Health Care Professionals

Congress Director
David A. Lieberman, MD, AGAF, FASGE

Congress Co-Directors
Gary W. Falk, MD, MS, AGAF, FASGE and John A. Martin, MD, FASGE

Learning Objectives
Upon completion of the congress, you will be able to:

- Develop an evidence-based approach to eosinophilic esophagitis, esophageal physiologic studies, dilemmas in PPI use and refractory GERD.

- Identify state-of-the-art management of inflammatory bowel disease.

- Implement recent advances in the management of viral hepatitis, autoimmune hepatitis, cirrhosis and screening of hepatocellular carcinoma.

- Distinguish between the various approaches for managing pancreatic cystic lesions, acute pancreatitis and chronic pancreatitis.

- Apply the latest screening and surveillance practices for average and high-risk CRC.

- Identify the current clinical significance of ongoing research developments of the gastrointestinal microbiome.
Thursday, Jan. 17, 2013

Clinical Congress CME Information

The AGA Institute is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The AGA Institute designates this live activity for a maximum of 12.5 AMA PRA Category 1 Credits™.

Physicians should only claim credit commensurate with the extent of their participation in the activity.

Note: Credits for the hands-on endoscopy courses are provided by ASGE.

Upper GI Endoscopy: Esophagus and Gastric Therapies
Focused on endoscopic techniques and therapies for the upper GI tract, this course features comprehensive coverage of the latest endoscopic technologies for the management of esophageal, gastric, and duodenal lesions and disorders. This course provides timely, stem-to-stern coverage of upper GI endoscopic therapies taught by world-renowned expert faculty. Expert application of essential techniques as well as the latest technologies will be demonstrated in the following:

- Clip hemostasis
- Argon plasma
- Cryotherapy
- Radio frequency ablation
- Endoscopic mucosal coagulation resection
- Esophageal stenting

Lower GI Endoscopy: Colonic and Intestinal Therapies
This hands-on course features comprehensive coverage of the most up-to-date colonoscopy and deep enteroscopy techniques and technologies taught by world-renowned faculty, from essential techniques to advanced technologies.

Techniques in the prevention and treatment of post-polypectomy bleeding will include:

- Hemostatic clipping
- Detachable snares (loops)
- Argon plasma coagulation
- Injection therapies
- Balloon enteroscopy
- Dye-spraying and other enhanced endoscopy techniques
- Perforation management techniques with cutting-edge closure technologies
- Colonic and intestinal stenting

Learning Objectives
As a result of attending these courses, participants will be able to:

- Apply advanced endoscopic skills and techniques to clinical practice in upper and lower GI endoscopy
- Evaluate the benefits, applications, and limitations of advanced endoscopic devices

Target Audience
Practitioners in gastrointestinal endoscopy, especially gastroenterologists, gastrointestinal surgeons, gastrointestinal nurses, and trainees.

Endoscopy Courses Director

WWW.GASTRO.ORG/CLINICALCONGRESS
Accommodations

Hotel Reservation Deadline: Dec. 17, 2012

A block of rooms has been reserved for attendees and exhibitors at:

The Hotel Del Coronado
1500 Orange Avenue
Coronado, CA 92118
Ph: +1-800-468-3533
Fax: +1-619-522-8238

Room rate: $255 single/double per night, 8.5 percent tax (tax is subject to change).

In addition to the room rate, there is a resort charge of $15 per room, per night, which covers high-speed internet access and other amenities. Contact the hotel for a complete list of amenities covered by the resort charge.

Reserve a hotel room by using the phone or fax numbers provided above. Be sure to mention that you are attending the AGA-ASGE Clinical Congress to receive the discounted rate. Reservations must be guaranteed with a credit card. The hotel will charge one night’s room/tax as a deposit and refunding of deposits will be made when reservations are canceled at least seven (7) days prior to the arrival date.

Refund Policy

Written cancellations must be faxed to AGA Member Services at 301-272-1774 or emailed to member@gastro.org by Jan. 4, 2013. There is a $50 nonrefundable processing fee for all cancellations, which will be charged to your credit card. Refunds will be issued upon cancellation, less the $50 processing fee. Refunds will not be issued after Jan. 4.

Refund policy for complimentary registration — cancellation of complimentary registration must be made by Jan. 4, 2013. Cancellations made after this date as well as “no-shows” will be assessed a $50 cancellation fee.

For More Information

Contact Maura Davis at mdavis@gastro.org for more information regarding the program.

For all registration inquires contact AGA Member Services at member@gastro.org or 301-941-2651.

Not a member of AGA or ASGE?

Join and save.

Submit a membership application with your registration form and receive the discounted member rate.
Visit www.gastro.org/membership to join AGA or www.asge.org/join for ASGE membership.
If you are submitting an AGA membership application with your congress registration, fax it to 301-272-1774 or email to member@gastro.org.
Save Time, Register Online

Registering for the congress and/or hands-on courses is easy.

1. Visit www.gastro.org/clinicalcongress
2. Click the “Register Online” button.
3. Sign in to your AGA account.
4. Select your member affiliation (AGA member, ASGE member, nonmember).
5. Indicate which event you will be registering for (congress, endoscopy courses, all).
6. Click next and follow the registration wizard instructions to complete your registration.

Note: Make sure to indicate if you will or WILL NOT be attending breakout sessions.

If you prefer not to register online, please fill out the form on the next two pages.
